El.Br.(I). Public Works Deptt.

Submitted with reference to office note at p.186 ante.

2. With a view to ensure a continuous, steady and regular supply of energy to all the consumers within the areas served by the electy. undertakings in this Province the Electrical Engr. to Govt. was requested to report the condition of supply of all the undertakings and make suggestions for improvements in each case. The reports on 60 electy. undertakings received from the El. Engr. had been dealth with vide o.n. at p.157 to 160 ante. As suggested by the El. Engr. some electy. undertakings were asked to take steps to improve their position of supply, vide G.Ls. at pp.162 to 179 ante. Replies received from the undertakings shown in the *margin are dealth with separately in separate files opened with the copies of relevant papers from this file. The Electy. undertakings at Amalner, Athani, Rander and Junnar have not intimated the steps taken by them for ordering new sets and for conversion of D.C. to A.C. system as suggested in the G.Ls. at p.169, 170; 174 & 175 ante respectively. They may be requested to intimate to Govt. the steps taken by them in the matter.

* The Karad Electric Supply Company.
The Allied Elec. Agencies, Ltd., Satara.
The Amalgamated Ely. Coy.(Belgaum).
The Nasik-Devlali Elec. Supply Coy.
The Malegaon Ely. Coy.
The Mahableshwar Elec. Supply Coy.
The Nipani Elec. Supply Coy.
The Yeola Elec. Supply Coy.
TheUdwada Wapi El. Supply Company.
The Venkatesh Power Supply Coy.

A

3. The reports on the supply position of B.E.S. & T. and the Bombay Suburban Elec. Supply Coy. were not received. The El. Engr. was therefore expedited vide G.L. at p.185 ante. The reports since received from him will be found at pp.187-190 ante. The El. Engr. considers that both the undertakings will be able to satisfy the demands of the consumers. No action is therefore necy. on them.

4. Certain electy. undertakings were not asked to place orders for new set though they are needed to improve the supply position, as Grid supply is to be made available to those places and it is not considered advisable to ask the licensees concerned to incur heavy expenditure on purchas. of new plants etc. vide para. 7 of the office note at p.158 ante. From the El.Commr.'s note it will be seen that Anand, Surat, Sanand, etc. places are likely to get grid supply within a year or two. But Byadgi will have to wait for 3/4 years more. Please see the El. Engr.'s report at p.135 ante. The El. Engr. may be requested U.O.to state whether he considers it necy. to ask the licensee to place orders for a new set.

5. What was aimed at in calling these reports was that the El. Engr. should be after the licensees and they should keep their position of supply in fairly satisfactory condition by carrying out the repairs to their machines etc. and by installing addl. sets where they are needed to cope up with the demand. The El. Engr. was asked to submit quarterly progress reports in respect of undertakings stating the progress made by each. For the reasons explained by him in his letter at p.161 ante, the El. Engr. however informed that the next progress report would be submitted in Sept. last. He has not yet submitted the reports. He may be expedited for the submission of reports.

6. .....

6. It may be stated here that after taking into consideration the position of elec. supply at several places, as revealed by the reports, and also the difficulties of the Electy. Undertakings in the manufacture and transport of materials, a press note has been already issued enlightening the general public of the causes of unsatisfactory elec. supply and requesting them to tolerate the tempy. inconvenience due to shortage of elec. power and occasional interruptions to supply due to breakdown of machinery. A copy of the press note will be found at p.195 ante.

Id.N.R.N.

14/12/49.
D.S.

The Undertakings at Bombay City, Bombay Suburbs, Bassein, Thana, Kalyan, Bhiwandi, Panvel, Lonavla and Poona receive supply from Tatas and are in a class by themselves. Their case is indirectly under consideration in the report of the Power Shortage Committee. They are mere 'agents' or distributors and not producers of elec. and should not be classed with others.

Action be taken on 'A' and 'B'; also the Elec. Engr. be asked separately as proposed in para. 4 of O.N. (This main file need not go to the Elec. Engr.) Individual cases should be dealt with on separate files.

Copy of letter dated 5-6-1950 from the Wanvi Brothers, Electric Light & Power Suppliers, Gada , Dist.Dharwar, to the Electrical Engineer to Govt.,P.W.D.,Bombay. Re:-Haveri Electric Supply.

=======

With reference to your letter No.IRM.31/1189 of 1950 dated 28th April 1950 we herewith beg to bring to your kind notice that the Government of Bombay has already declared the current of Jog falls will be supplied from Varihar to our Haveri (in our destination) and that the poles and every others required for the electric supply already sanctioned and also the contract has been given.

The electrical Asstt.Engineer came to our destination and saw our power house and the place of sub-station who also said that the distant from Varihar is very near and the current will be supplied within a short time. Such being a case if we ordered Diesel engines with A.C. Generator from foreign country it will take at least two years and no body has got ready stock at Bombay and other places and unnecessarily we will have to spend lacs of rupees or more. So it is better to wait until to get current from Varihar.

We hope that our request will be granted.

"True Copy"

Head Clerk to the
Electrical Engineer to Govt.

Below W.C.R. No.305/48(19) dated the 25th April 1950, from Government in the Public Works Department.

======

No.IRV.31/ 3403 of 1950.

Bombay, 20th June 1950.

Returned with compliments.

2. In this connection, a copy of the Supply Company's letter dated 5-6-1950 is enclosed. As it is doubtful if the supply from Jog Falls will be available in the near future, say within 3-4 years, it will not be desirable to allow the Company to wait till then. The Company should, therefore, be asked to make immediate arrangements to order out an additional A.C. plant of adequate capacity to cope up with the demand of the town.

Electric Grid Offices.

Supply to Haveri from Harihar under the Jog scheme is expected to commence by the end of 1953. Since it will be about 3½ years before supply of electricity under the Jog scheme can be made available to Haveri, it is suggested that, in view of the report regarding the present supply position at Haveri by the Electrical Engineer to Government (copy of report on page 1 ante of C.S.), the Co. may be asked to make immediate arrangements to order out an A.C. plant of adequate capacity to cope up with the demand of the town.

{Recd. with Elect. Engr's letter No. LRM. 31/6712, dated the 31-1-49}

HAVERI ELECTRIC SUPPLY COMPANY, HAVERI.

The power house is equipped with 4 generating sets having a total rated capacity of 46 K.W. The peak load on the station goes to 34 K.W. and the plant is just able to cope up with this peak load. The sets are working under full load condition and require thorough overhauling and replacement of worn out parts. This work cannot be carried out due to lack of standby plant. There are about six pending requisitions with the Company.

The existing supply is D.C. and the Company intends to erect a new power house and change the existing D.C.system into A.C.supply It is learnt that the Company proposes to place an order for a new A.C.plant, after getting the above conversion of supply approved by Government. As Haveri is likely to obtain supply from the Jog Falls when the necessary transmission lines are laid, it is suggested that the Company may be asked to instal an A.C.plant of adequate capacity to cope up with the demand of the town.

Electrical Engineer to Govt.

3 { Recd. with the Elect. Engr's letter No. LRM.31/7258, dated the 10-12-49 }

PAVERI ELECTRIC SUPPLY COMPANY, PAVERI.

There is no change in the condition of supply during the last six months. All the engines require overhauling and replacements of worn out parts such as cylinder heads, liners, fuel pumps etc. The Company has placed orders also for the spare parts but have not yet received.

A Though the Company has tried to change over the system from D.C. to A.C., it has not yet placed any orders for the new equipment.
